Departments:

I renamed the default “Support” department to “IT Support” and added two new departments - Networking Team and HR.

SLA Plans:

I created three SLA plans, “SEV-1” meaning severity-1, and so on with the rest. I gave each their corresponding grace periods.

Agents:

I created two agents and assigned them to different departments - Sam Smith in IT Support and Rachel Moore in the Networking Team.

3. Ticket Log Summary

Ticket #	User	Issue	SLA	Assigned To	Status
001	Ahmed Hijazi	Issue with Connecting to Company Wi-Fi	SEV-2	Rachel Moore	Closed
002	John Brown	Account locked out after wrong password	SEV-3	Sam Smith	Closed
003	Valerie Knox	Laptop running very slowly	SEV-2	Hagar Soliman	Closed
004	John Brown	User can't connect to VPN from home	SEV-2	Rachel Moore	Closed
005	Ahmed Hijazi	Outlook not opening	SEV-2	Hagar Soliman	Closed

4. Individual Tickets

Ticket #001:

Issue with connecting to Company Wi-Fi

Status:	Open	User:	 Ahmed Hijazi (1)  (Manage Collaborators)
Priority:	Normal	Email:	ahmed.hijazi@aztechsolutions.com
Department:	Networking Team	Source:	Phone
Create Date:	6/7/26 2:29 PM		
Assigned To:	Rachel Moore	Help Topic:	Network Issue
SLA Plan:	SEV-2	Last Message:	6/7/26 2:29 PM
Due Date:	6/7/26 5:17 PM	Last Response:	

Description:

User has been having trouble connecting to the Company Wi-Fi since coming in this morning. Everyone else has no problem connecting to the Wi-Fi. User is on a Windows 10 laptop. No recent changes have been made to the device.

Steps Taken:

1. Confirm that the issue is isolated to the user's device,
2. Ask user to forget the network and reconnect, issue persists.
3. Checked IP via ipconfig, there was an APIPA address.
4. Restarted network adapter via Device Manager.
5. User obtained a valid IP and reconnected successfully.

Resolution:

Network adapter was in a failed state causing DHCP failure. Restarting the adapter resolved the issue.

Ticket #002:

Account locked out after wrong password attempts

Status:	Closed	User:	 John Brown (1)  (Manage Collaborators)
Priority:	Normal	Email:	john.brown@aztechsolutions.com
Department:	IT Support	Source:	Phone
Create Date:	6/7/26 2:49 PM		
Closed By:	Hagar Soliman	Help Topic:	Password Reset
SLA Plan:	SEV-3	Last Message:	6/7/26 2:49 PM
Close Date:	6/7/26 2:50 PM	Last Response:	

Description:

User was locked out of his work account after multiple wrong attempts to login. The lockout period was for 15 minutes. User claims that he entered the correct password.

Steps Taken:

1. Wait for the lockout period to re-enter password, login attempt failed.
2. Reset user's password from the account panel.
3. Assign the new password to the user.
4. Restart user's device.
5. User was able to login to his account with the new password successfully.

Resolution:

User was entering the wrong password, he was able to successfully login after a new one was created.

Ticket #003:

Laptop running very slowly

Status:	Closed	User:	 Valerie Knox (1)  (Manage Collaborators)
Priority:	Normal	Email:	valerie.knox@aztechsolutions.com
Department:	IT Support	Source:	Phone
Create Date:	6/7/26 2:54 PM		
Closed By:	Hagar Soliman	Help Topic:	Software Issue
SLA Plan:	SEV-2	Last Message:	6/7/26 2:54 PM
Close Date:	6/7/26 2:55 PM	Last Response:	

Description:

User reported that her laptop is running very slowly. Unable to continue work due to lagging issues. User owns a Windows 10 laptop.

Steps Taken:

1. Asked if the user has downloaded any software, user has not.
2. Ran a malware scan - malware was detected.
3. Removed malware from the laptop.
4. Restarted the laptop and its performance has come back to normal.
5. Informed the user to not click on any link unless they know it is from a known source.

Resolution:

Malware was detected and removed using a full system scan. Laptop performance restored to normal and user was advised on safe browsing practices.

Ticket #004:

User can't connect to VPN from home

Status:	Closed	User:	 John Brown (2)  (Manage Collaborators)
Priority:	Normal	Email:	john.brown@aztechsolutions.com
Department:	Networking Team	Source:	Phone
Create Date:	6/7/26 2:57 PM		
Closed By:	Hagar Soliman	Help Topic:	Network Issue
SLA Plan:	SEV-2	Last Message:	6/7/26 2:57 PM
Close Date:	6/7/26 2:58 PM	Last Response:	

Description:

User reported not able to connect to VPN from home. No other remote workers see to have an issue. User owns a Windows 10 laptop.

Steps Taken:

1. Asked the user if he has entered the proper credentials, user has claimed he did and connection has still failed.
2. Checked if VPN is up-to-date - it is.
3. Checked VPN settings - nothing wrong there.
4. Asked the user to disconnect and reconnect their Wi-Fi network as this might be a home network issue - that doesn't work.
5. Asked the user to restart the VPN software - works this time.

Resolution:

VPN software just needed restarting for the user to be able to connect to the VPN.

Ticket #005:

Outlook not opening

Status:	Closed	User:	 Ahmed Hijazi (2)  (Manage Collaborators)
Priority:	Normal	Email:	ahmed.hijazi@aztechsolutions.com
Department:	IT Support	Source:	Phone
Create Date:	6/7/26 3:00 PM		
Closed By:	Hagar Soliman	Help Topic:	Report a Problem / Access Issue
SLA Plan:	SEV-2	Last Message:	6/7/26 3:00 PM
Close Date:	6/7/26 3:01 PM	Last Response:	

Description:

User is unable to open his outlook email. No other employees have the same problem.

Steps Taken:

1. Asked user when the issue started, it started this morning after a Windows update was installed overnight.
2. Tried opening Outlook in Safe Mode and it opened successfully.
3. Safe Mode confirmed a faulty add-in is the cause.
4. Went to File → Options → Add-ins → Manage COM Add-ins
5. Disabled all add-ins and restarted Outlook and it opened successfully.
6. Re-enabled add-ins one by one to identify the faulty one.
7. Identified and permanently disabled the problematic add-in.

Resolution:

A Windows update caused an add-in conflict preventing Outlook from launching. Issue was resolved by identifying and disabling the faulty add-in and the user's email was restored.

5. Conclusion

Through this project, I was able to understand how ticketing systems work. I learned how to open and close tickets, how to assign different users to different departments, and how to solve real world problems. I can definitely see myself applying my gained skills to an actual real-world environment where a ticketing system is used.
